**Online Complaint Registration and Management System**

|                      |                                                     |                                                                                                                          |
|----------------------|-----------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>I am</b>          | Describe the customer with 3–4 key characteristics. | A citizen or customer who wants to report an issue quickly and securely through an online platform.                      |
| <b>I'm trying to</b> | What outcome is the customer trying to achieve?     | Register a complaint, track its progress, and receive timely updates until it is resolved.                               |
| <b>But</b>           | What problems or barriers stand in the way?         | Complaint submission is slow, there is no proper tracking system, and communication with authorities is difficult.       |
| <b>Because</b>       | What is the root cause of the problem?              | Existing systems rely on manual processes, lack centralized complaint management, and provide limited real-time updates. |

|                            |                                   |                                                                                                 |
|----------------------------|-----------------------------------|-------------------------------------------------------------------------------------------------|
| <b>Which makes me feel</b> | Describe the customer's emotions. | Frustrated because I cannot monitor my complaint status or know when my issue will be resolved. |
