

User Acceptance Testing (UAT) Template

Date	14 JUNE 2026
Team ID	INDIVIDUAL PROJECT
Project Name	Online Complaint Registration and Management System
Maximum Marks	

Project Overview

- **Project Name:** Online Complaint Registration and Management System

Project Description:

- This web-based platform enables citizens to register complaints, track progress, and receive timely updates from government authorities. The system ensures transparency, accountability, and efficiency through secure authentication, real-time tracking, and automated notifications. Administrators and agents can manage complaints, assign tasks, and monitor resolution timelines effectively.
- **Project Version:** Version 1.0
- **Testing Period:** 25 June 2026 to 25 June 2026

Testing Scope

Features and Functionalities to be Tested

- User registration and secure login with JWT authentication
- Complaint submission and categorization
- Real-time complaint tracking and status updates
- Admin dashboard for complaint assignment and monitoring
- Agent dashboard for resolution and feedback management
- Notification system for updates via email/SMS

User Requirements to be Tested

- Users should be able to register and log in securely
- Users should submit complaints with relevant details and attachments
- Users should view complaint progress and receive timely updates
- Admin should assign complaints to agents and monitor resolution
- Agents should update complaint status and provide resolution notes

- System should maintain secure data storage and ensure transparency

Testing Environment

- **URL/Location:** Localhost / Web Application Staging Environment
- **Credentials (if required):**
 - **Citizen User:** aditya@gmail.com / 123456
 - **Admin:** admin@gmail.com /123456
 - **Agent:** ravi@gmail.com / 123456
